Turbo Caribbean Stud Poker v1.2

This computer game is based on Caribbean Stud Poker   which has become one of the most popular table games in casinos all over the world.   The game is played with standard poker rules, but is much more **interesting** and **exciting** than typical poker because you can win many times your original bet.   Its also a fast game suitable for computer play.

How to Play:

1.   The player makes a bet, the shareware version is limited to $20 maximum bet.

2.   The dealer deals the hand, 5 cards are dealt face up for the player, 4 up and one down for the dealer.

3.   Player must now decide whether to fold (or surrender) the hand or make a second additional bet for twice the original amount.

4.   The second bet counts only if the dealer has an Ace King or higher.   If the dealer has less than Ace King,   the player is always paid no matter what the players cards are.   In this case where the dealer cannot qualify the player is paid even money on the original amount bet.

5.   If the dealer qualifies with an Ace King or higher,   then the highest hand (player or dealer) wins.

6.   If the player wins with a hand of two pair or better he receives an additional *bonus* payment.   The higher the hand the more you receive.

This game can be used to test your theories and strategy before risking real money in the casinos.

Bonus Payouts :   The Bonus is paid only on the Second Bet amount and only if dealer qualifies with an Ace King or better hand.

Two Pair	2X
Three of a Kind	3X
Straight	4X
Flush	5X
Full House	8X
Four of a Kind	12X
Straight Flush	50X
Royal Flush	100X

For the shareware version betting is limited to $20 Maximum and the game will stop when your total goes over $200   or less than 10.   This allows you to fully try the game without crippling any features or excessive nagging.

In the registered version you can play as long as you like, your total and bet are also saved between sessions so you pick up where you left off.   The registered version comes on a full 1.44 diskette with many other great games and shareware.
