SYSTEM REQUIREMENTS

Operating System

Disk Space

Hardware

Operating System

Your computer must have Microsoft Windows 95, Windows 98, Microsoft Windows NT 4.0, or higher versions of these operating systems.

Disk Space

This program requires approximately 12 megabytes of space on your hard drive. An additional 3 MB is required for each screen saver you install, except for Grand Slam which requires 15 MB.

Hardware

A mouse or pointing device is required.

To access our web site you must have a modem and a connection to the Internet.

Windows 95, Windows 98, Windows NT 4.0

1. Place the CD into your CD-ROM drive.
2. In the start-up screen click on START, then click on RUN.
3. Type in D:\CDSETUP and press Enter. (If your CD-ROM drive is not D, then change it to the letter associated with your CD-ROM drive.)
4. Follow any instructions that appear on the screen.

Golf Courses of the World

Golf Courses of the World provides you with 10 different screen saver series each containing 20 beautiful images of golf courses and golfing from around the world.

You are licensed to install one copy of the program and of each screen saver on one computer for your own personal use.

Installation of each saver

Each screen saver is provided in a "package" file. **A screen saver must be installed in Windows before it can be used.** This is only required to be done *once for each individual screen saver*. This is a requirement of Windows.

Golf Courses of the World provides an automated setup for each screen saver.

To select a screen saver to install, run the Cosmi Golf Screensavers program. A shortcut for this program is created when you install the CD:

Main menu

The image collections are named for old-fashioned golf club types. Grand Slam is ALL of the savers. Be warned, this may be slow on machines that have relatively small amounts of memory or slower processor speeds. To install a screen saver, click on the saver of your choice, and then click on the install button:

Follow the prompts to install the screen saver and make it available for your use.

Screen Saver page

If you select USE AS DEFAULT SCREEN SAVER, the saver currently on the screen will become the saver activated when you are idle. You may customize when the saver starts, and how long each image will be shown.

The other advanced settings on the Screen Saver page include:

Enlarge pictures to Best fit (not recommended; images are already optimized for VGA)

Tile pictures (not recommended)

Use random image order (matter of personal taste)

Show Picture titles (not recommended)

Display pictures in black and white (not recommended)

Use sound effects (matter of personal taste)

Wallpaper page

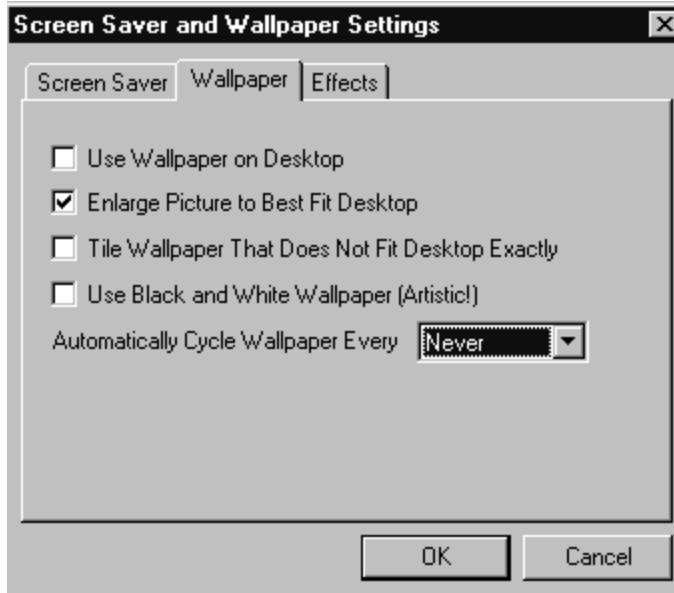

Wallpaper

Wallpaper are the images displayed on your desktop. You may switch between several different wallpaper types.

To use an image as wallpaper, highlight the image and then click on the Wallpaper button:

The program will automatically set the current image as your wallpaper.

The other advanced settings on the Wallpaper page include:

Use Wallpaper on Desktop (matter of personal taste)

Enlarge Picture to Best Fit Desktop (not recommended)

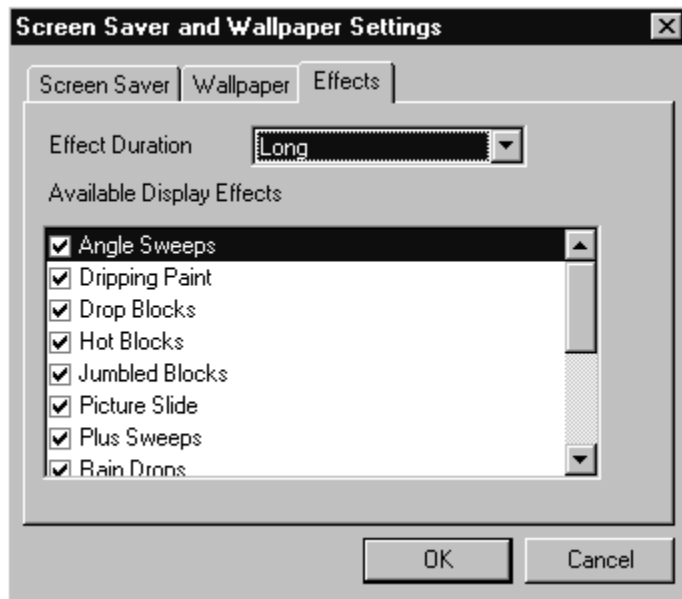

Tile Wallpaper (not recommended)

Display pictures in black and white (matter of personal taste)

Automatically cycle (matter of personal taste)

Effects page

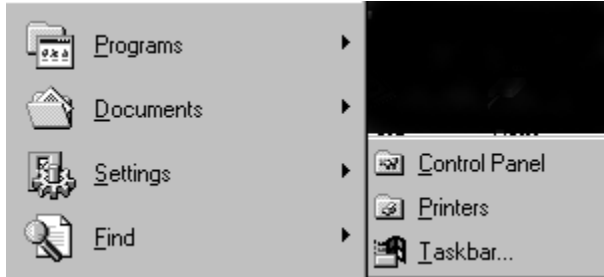

The effects page allows you to select which effects will be used between images.

Select these as you see fit.

Changing savers

After you have installed a screen saver ONCE, you may select it or change to no saver, or to any other screen saver. This is done through the Windows Control Panel:

To reach the control panel, click on the start button and select Settings, then Control Panel. Now select the DISPLAY icon:

You may then manage your screen savers from the screen saver tab:

Your screen may vary due to different installed equipment

The settings which you used when you installed a saver are recognized by Windows. You may change the settings as you see fit.

For more information on the settings, please consult Windows help.
