

Our Another Notepad features... Hot keys for nearly every function. (Why did Microsoft not include something so simple and essential as hot-keys?) CTL+S to Save, CTL+O to Open a file, CTL+A to Select all text, and many more)

Easily merge a second file into the notepad. You no longer need to open two copies of Notepad to clipboard cut and paste the contents of one notepad into another!

Wordstar key commands! For programmers who cut their teeth on programmer's editors and the Wordstar key command set...relief is here!

Sort the contents of the notepad in ascending or descending order!

Maintains a list of the last 7 files you opened for quick reloading! If you work on the same files over and over again, oh what a joy a "recently used file list" is!

Where did that notepad go?! Stop searching... Another Notepad has an option to make it stay on top of all other applications.

Tired of the default font that Microsoft forces you to use? No longer! Another Notepad lets you choose the font style and size. Itsy bitsy or mammoth LARGE!

Auto-save and auto-restore your custom settings. Resize our Another Notepad, move it around on the desktop, change the fonts...then exit the program. When you restart Another Notepad it will look exactly the way you left it...in the very same spot on the screen...the same window dimensions (height/width)...the same fonts, etc! It remembers!

Automatically inserts the date and/or time and/or your name and/or your address at the current cursor position!

Set and retrieve up to 10 bookmarks.

Convert a block of text to UPPERCASE or lowercase.

Strip all numbers from a highlighted block of characters.

Whoops! Microsoft's Notepad says the file you attempted to load is too large! Another Notepad is more flexible and allows you to load text files up to 16 megabytes in size.

Views binary files in hexadecimal read-only mode automatically. Great for peeking safely inside .DLLs and .EXEs without damaging these files.

Smart tabs! Auto-indentation! User definable word wrapping! and more!

How many of the following words do you know? avouch; bruit; collop; durst; emerods; firkin; gainsay; habergeon... That's what we thought! Not so easy is it? These are just a few among hundreds of obscure words found in the King James translation of the Bible.

King James Dictionary is a dictionary containing many of the archaic, obscure words found in the Authorized Version (aka 'King James Version') of the Bible.

Includes over 800 definitions, from "Anon" to "Wist".

Each word is accompanied with a definition and Bible verse showing the context of how the word is used.

This is a handy, useful resource for Bible students that will assist you in understanding the Bible better.

## **KJVocabulary**

KJVocabulary is a King James Bible quiz and dictionary.

Is the King James Version full of hard to understand, archaic words? Through a quiz format you can learn the meaning of all those tough Bible words, like "concupiscence," "greaves" and "wist". Or you can go directly to a handy on-line dictionary. The entire dictionary can be printed out for use with your Bible reading. An interesting and fun way to increase one's knowledge of this classic Bible translation. Included are several essays on the history and background of the King James Version, and its importance in the modern age.

### **The Proverbs of Solomon**

The Proverbs of Solomon is a menu-driven program that tests and increases one's knowledge of the Old Testament book of Proverbs. The program features 2 different interactive quizzes that challenge your memory: 1) match proverbial couplets together, 2) fill in the blanks. Also included are numerous textual commentaries (resource notes). Also includes the complete text to all 31 chapters for easy viewing. Educational and challenging

### **Questions from the Bible**

QUESTIONS FROM THE BIBLE is an in-depth storehouse of questions gathered from the Old and New Testaments. Thousands of interesting facts are presented as questions in a quiz-like environment, prompting the user for the correct answers. The questions are grouped into dozens of categories, from "Word meanings" to "Geography of the Bible". The DELUXE VERSION (available upon registration) allows the user to add, modify or delete the existing questions, and even create new categories.

## **Big Math Attack!**

BIG MATH ATTACK! is a colorful, graphic program that tests your math solving, spelling, typing and metric conversions skills in a fun arcade environment. Several skill levels are available that makes this program suitable for both children and adults. Top scores in each category are recorded to track one's progress.

The objective of the game is to protect your city from falling meteorites. The only defense that you have is to fire missiles at the descending meteorites. Problems fall from the sky at increasing frequency and must be solved before they pummel your town into dust.

Don't let the program name fool you...this program tests typing skills (like Letterfall) AND spelling words. You can even add custom spelling word lists and make the falling meteorites turn into spelling words.

## **Crayon Box**

Crayon Box is a collection of fun activities and educational tools for young children. This one program features a coloring book with over 450 colors/patterns, drawing tools, and spiral designs.

On the educational side...Crayon Box features + - / and x drills with large, easy to see numbers, at 10 skill levels.

Also included is a color recognition and counting game, and a USA game that prompts the user to identify a state or capital on a color map. Along with a Concentration type memory game where you find matching pairs. Lotsa music and a player piano keyboard where your young Beethovens can practice their music skills.

This collection will keep your young ones busy for hours! Fun,

educational, and easy to use.

## **Create A Quiz**

Create A Quiz allows you to generate your own on-screen interactive quizzes. Supports multiple choice and fill in the blank style tests. Quizzes can also be printed out for use in conventional pencil/paper tests, however its specialty is "on-screen" quizzing. If you have ever wanted to create your own trivia games, or in-house training, Create A Quiz makes your job easier. Point and shoot menu interface, mouse support. Great also for home schooling parents. Comes with sample quizzes to test your knowledge of plants, animals, math, capitols, and more.

The quizzes are graded automatically as the user takes a quiz behind a computer. Yes, your very own on-line, interactive teaching tutor! Dozens of different configuration options allow you to customize each quiz to your specifications. Supports 16-color .PCX images. Even functions as an online "survey" - prompting user for input and logging results to disk.

Very flexible, easy to use, and can be used in many different settings.

## **Crossword Challenge**

Now you can SOLVE electronic crossword puzzles on your computer interactively! Many puzzles have already been included for your enjoyment. Features include: Answer peek, save your work to disk for later retrieval, help screens. A fun way to increase your vocabulary. A cruciverbalist's delight.

## **Lil' Picasso**

LIL' PICASSO is a coloring and creativity package for children. Your children will spend hours coloring the pre-drawn pictures

with a paintbrush of over 300 colors and patterns. Children can also choose from a variety of drawing tools to create their own masterpieces. Fun, simple to use. Colorful point and click icons make understanding the interface easy (ideal for little children who can't read yet). Artwork can be saved to disk or printed.

## **Show 'N Spell**

SHOW 'N SPELL is a high-resolution graphic spelling bee for children (and adults?).

Over a thousand different large 2" graphic images appear for the user to spell correctly. For example, first a picture of a horse will appear, and then the program prompts the user to correctly spell the object before continuing on to the next picture. Options include: Playing against the clock; 3 different skill levels (beginner, intermediate and advanced); "Top 10" score board records best work;

Customized word lists can also be created and imported into the program. Words from such lists then can be displayed in flashcard method, or for fun, scramble each word and have the user try to unscramble the letters to find the original.

Supports mouse for those who may be physically impaired and unable to type.

A fun yet educational program.

You can download all of these programs at: <http://www.pc-shareware.com/>

## ***Frequently asked questions***

**Q: When I purchase this screen saver, how many more witty sayings will be included with my registered version?**

A: When we mail you your licensed copy of Wit and Wisdom, it will come with over 1150 witty sayings and wise phrases.

**Q: A friend of mine does not have Windows. Is Wit and Wisdom available for MS-DOS?**

A: No, sorry, we do not have a DOS version.

**Q: Is Wit and Wisdom free?**

A: Wit and Wisdom is shareware. Shareware is NOT freeware. Shareware is a "try before you buy" software marketing concept that allows the user to obtain fully functional copies of programs for evaluation. The distribution and copying fee that you may have paid to obtain this disk does not cover the cost of the software contained on this disk. Shareware programs such as the one that you have obtained require separate payment to the author if it is found to be a useful product and if it is used beyond a reasonable evaluation period.

**Q: I would like to give Wit and Wisdom as a gift to some of my friends. Do you offer a discount for multiple quantity purchases?**

A: Yes, the more copies you purchase, the lower the registration fee. If you wish to purchase one additional copy for a friend, add \$8.00. If you have lots of friends, each extra copy of the program costs only \$7.00. For example, if you want to register a copy for yourself PLUS two copies for two friends, the total cost would be \$13.95 + \$7 + \$7 = \$27.95. These prices are only available when mailing your registration directly to the

author. You must also include the complete names and addresses for each friend for licensing purposes. All disks, however, will be mailed to just one address.

**Q: How do I slow the phrases down? They change too quickly for me to read.**

A: When you install Wit and Wisdom using the INSTALL utility you will find a "Configuration options" icon added to your Program Manager or program group. Simply double click on this icon to access many of the options that allow you to customize Wit and Wisdom. When the "Wit and Wisdom options" window appears, click on the "Configuration" button. The next window that appears will allow you to change the frequency of the phrases, the size of the fonts, the screen background color, and more.

**Q: How do I uninstall Wit and Wisdom?**

A: Wit and Wisdom may not be for everyone, therefore it is possible that you may wish to remove the program from your hard disk drive. To delete Wit and Wisdom in its entirety, simply delete the following files from your \WINDOWS directory:

WITNWISE.SCR  
WITNWISE.HLP  
WITNWISE.INI  
WITNWISE.PHR  
WITNW\_GO.EXE  
WITNWCFG.EXE  
WITNEDIT.EXE (only if you purchased the Phrase Editor)  
WITNEDIT.INI (only if you purchased the Phrase Editor)

**Q: After I installed Wit and Wisdom I have not been able to control the power saver features of my monitor.**

A: You will NOT be able to use your power management feature

with Wit and Wisdom. You will have to choose one or the other. Your power management feature is actually activated by another screen saver file, therefore you cannot have two screen savers active at the same time.

**Q: Can I add my own phrases to Wit and Wisdom?**

A: Yes. We also sell an editing utility that easily allows you to add and delete verses from the database of verses. The cost of this additional program is \$4.00.

**Q: Wit and Wisdom is fantastic! How can I obtain a registered copy as soon as possible? I'm in a hurry and just have to have it now!**

A: The fastest way to obtain Wit and Wisdom would be to register with a credit card by phone. VISA, Mastercard and American Express credit cards are accepted by calling (540) 371-5746 during weekday evenings or all day Saturday. A disk will then be sent to you within 48 hours.

If you are NOT in a hurry, registrations can be sent by regular mail to our street address. Turn around is approximately 2-3 weeks.

**Q: After I send you my payment for your product, will that annoying registration form keep on popping up? I sure hate to keep being reminded to pay for this program.**

A: When we receive your payment, you will be mailed an up-to-date, fully registered version, with the payment "nag" window removed. You will not be reminded to pay for the program, since you have already paid for the program! You will have to live with the "nag" screen, however, until your disk arrives in the mail.

Q: Will this screen saver run under Windows NT?

A: No. The screen saver only works with Windows 3.1 and Windows 95.

Makes the World Wide Web and your HTML pages available to those who do not have Internet access. Now you can place your HTML pages on a diskette, along with Book Browser, and the World Wide Web can be delivered on a diskette to anyone!

## **Disk Note Librarian**

DISK NOTE LIBRARIAN is a file and disk cataloging utility that allows you to add descriptions & comments to each file name, including directories, on a disk. Descriptions can be up to 300 characters in length, & can easily be edited at a later date. Some of the features included are; on screen editing, a hot key for instant access to DOS, file view utility, file compression utilities, and many more. There's also file management utilities like; copy, delete, sort, attribute control, & quick glance. This program is ideal the home user and professional, who needs control of their software libraries.

## **The Disk Vendor**

THE DISK VENDOR catalog on diskette authoring software

For businesses that would like an alternative to a printed product catalog THE DISK VENDOR offers a solution. THE DISK VENDOR is a software authoring system that allows your company to easily create professional looking menu driven catalogs for your customers that can be distributed via

computer floppy diskette. Sell anything from "anchors" to "zippers". The program handles credit cards, large volume discounts, shipping and handling charges, printed order forms, custom opening & closing screens. Complete instructions are included with the program (on-disk) and a sample catalog. If you know how to use a word processor, then you have all the skill necessary to create your own on-line electronic catalog on a disk!

### **The DeskJet Survival Kit**

A collection of useful utilities and tips for Hewlett-Packard DeskJet series printer. Includes instructions and diagrams for refilling empty inkjet cartridges, saving you \$\$\$'s! Also prints 2, 4 or 8 pages of micro text on 1 sheet! Also sets ESC codes. Includes TSR address grabber utility that will grab an address off the screen and send it to an envelope. A must have collection of utilities if you own a H/P DeskJet series printer.

### **Envelopes Plus...**

ENVELOPES PLUS... is an easy to use, menu driven database for printing envelopes of all sizes, for printing 1 to 4 column mailing labels, and for printing Rolodex cards. The program can even dial phone numbers. Works with dot matrix, H/P DeskJet inkjets, and H/P laser printers. The program even allows the user to attach a 100 line memo field/file! Calculator, lots of extras. Intuitive DOS interface. Great for the beginner or novice (and even small businesses) to establish a database of names/contacts. The program does not require the user to know anything about database setup. Forget about indexes, data fields, and record names...the program allows you to begin entering data within 30 seconds after start-up. Supports Avery piggyback and sheet labels..

### **Electronic Text Publishing System**

The Electronic Text Publishing System is used to make "electronic" books or magazines, such as tutorials, training manuals, or even works of literature.

The E-Text system allows you to create professional looking, royalty-free programs with minimal effort. E-Text uses text files that you create and compiles them into a menu driven "electronic" book, complete with a table of contents. If you know how to use a word processor, then you have all the skills necessary to publish your own "electronic" books on a disk.

E-Text also supports the use of 256-color .PCX images, submenus, executing DOS commands.

## **Home Loan Diary**

Want to earn 1729% on your money by investing in your home mortgage? Want to see what an extra \$25 principal per month will do to the length of your mortgage? HOME LOAN DIARY is one of the easiest to use mortgage amortization calculators around! Scroll back and forth through an amortization table just like a Lotus 1-2-3 spreadsheet. Great for playing "what-if". Powerful, yet very practical, for it shows you how much \$\$\$ you can save by prepaying a loan. Even tracks escrow accounts and allows user notes/comments to be attached to each loan. Written specifically for home owners.

## **ItemTree**

There are times when a notepad won't do and times when a database is overkill. For bits of data that you need to keep track of ItemTree may be the solution... The data you enter into ItemTree, whether it be Web URLs, phone numbers, or a list of things to do, can be entered in a hierarchical format, allowing you to easily classify items under different categories. The result looks like a family tree chart.

## **My Screen Saver**

Have you ever wanted to design your very own, personalized Windows screen saver? Now you can build one, adding your favorite graphic images and words of wisdom.

## **Offsite Explorer**

A Microsoft Internet Explorer browser look-alike. Useful for viewing and editing your HTML files while NOT connected to the Internet.

## **The Paper Saver**

The Paper Saver is a printer utility for all laser printers & Hewlett Packard DeskJet printers. It is a great solution for reducing the paper glut that comes when printing large ASCII text files. Prints up to 8 pages of text on every sheet in a tiny, but very readable font. Or you can use a standard 10 cpi font in various layouts (landscape, back and front sides, etc.) The program can print 1, 2, 4 or 8 pages on every sheet in single or double columns, front and/or back, collated. It even prints booklets. Menu driven, easy to navigate.

## **Password Guardian**

Having a hard time remembering all those passwords, PINs and combinations? Here's a great database to securely keep them!

## **Sentry 95**

Sentry 95 will prevent unauthorized users from accessing your computer. Think of it as a personal guard standing beside your computer, asking all who approach for a password in order to gain access.

## **Sheet Music Designer**

Sheet Music Designer is a utility to print blank music paper on letter size (8.5" x 11") paper. With this program you can print treble and bass staves, along with guitar tablature. You have the ability to adjust left and right margins, line thickness, and closing brackets.

## **Type-It**

TYPE-IT - Converts your dot matrix or daisy wheel printer into a typewriter. This utility allows you to print out notes, envelopes, etc. quickly, just as if your printer was a typewriter.

## **Wit and Wisdom**

Screen saver that displays clever thoughts, famous quotations and witticisms randomly on your screen.

## **The X-Filer**

Convert a single .TXT file into stand alone .EXE in seconds!

## **Special offer for Wit and Wisdom registrants!**

We are offering to Wit and Wisdom registrants the Educational Software Cooperative's shareware collection on CD-ROM for only \$6.95!

The Educational Software Cooperative (ESC) is a non-profit forum whose goal is to promote educational shareware as a low-cost, high-quality alternative to retail educational software. The ESC consists of shareware program authors, teachers, and software vendors.

As a member of the ESC, Philip P. Kapusta can provide this high-quality collection of educational shareware to registrants at a special price. If you take advantage of this offer **AT THE SAME TIME YOU REGISTER THIS PROGRAM** then the price for the Educational Software Coop. CD-ROM is only \$6.95 (shipping is free)!

This price of \$6.95 applies only to those who are registering the accompanying program, and your request must accompany your registration payment to the author. If you are interested in this offer but are not planning on registering the shareware program you just evaluated, or if you discover this offer **AFTER** registering, then the cost of the CD is \$16.95.

Over 150 educational programs are included on this CD-ROM. They are direct from the authors so they are very current versions and virus free. The CD-ROM contains an easy to use graphical, point and shoot menu system that helps you find, install, and browse through the programs. Contains many hundreds of hours of fun and education for you and your children. With everything from simple DOS programs that teach a four-year-old basic spelling to complicated Windows hypertexts that cover the Chemistry periodic table!

Most of the programs on this CD-ROM are shareware and require registrations for continued use beyond the trial period specified. The price paid for this CD is for the purchase of the

CD-ROM disk only and does not cover the registration of any of the included software.

Some of the categories and programs found on this CD-ROM disk:

ABC's - ABC-Talk; Animated Words; Crossword Challenge; Jurassic Spelling; Show 'N Spell; Talking ABC's; Word Rescue; and many others..

123's - 123-Talk; Animated Money; Animated Multiplication and Division; Big Math Attack!; Basic Algebra; Math Challenge; Math Rescue.
