NO WARRANTY

Because the programs are licensed free of charge, there is no warranty for the programs. The authors and publishers of this textbook are not liable for damages arising out of the use or inability to use the program (including but not limited to loss of data or data being rendered inaccurate or losses sustained by you or third parties or a failure of the program to operate with any other programs), even if such a holder or other party has been advised of the possibility of such damages.

Refer to the following No Warranty Conditions:

TECHNICAL SUPPORT:
If you are having problems with this software, you can also support by filling out the web form located at http://247.prenhall.com/mediaform.html

Our technical staff will need to know certain things about your system in order to help us solve your problems more quickly and efficiently. If possible, please be at your computer when you call for support. You should have the following information ready:

- product and title and product ISBN
- computer make and model
- RAM available
- hard disk space available
- graphics card type
- sound card type
- printer make and model
- network connection
- detailed description of the problem, including the exact wording of any error messages.

Note: Pearson does not handle technical support for third-party software.
