Bryce 2 Demonstration Version Only
Macintosh/Power Macintosh

This version of Bryce 2 has been save-disabled and restricted in various ways to prevent software piracy. All front-end features of the commercially released product are supported here, enabling customers to evaluate and demonstrate this product effectively. It is not intended for resale. The retail version includes all features and functionality not available in this Demo version, plus a CD-ROM full of sample images, tutorial files and a manual. For inquiries regarding the retail version, please call MetaTools, Inc. at (800) 472-9025.

 WHAT IS BRYCE 2?

 Bryce 2 is a stand-alone application that offers a revolutionary new way to design and render breathtaking natural 3D worlds and abstract 3D sculptures with unprecedented power and ease.   Bryce puts the power of high-end workstations into user's hands, whether they are a beginner or a professional 3D artist.   Bryce's intuitive interface simplifies learning and makes exploring   creative options as fun as viewing the final masterpiece. In no time, users are rendering beautiful, never-seen-before 3D images and scenes.

WHAT'S NEW IN BRYCE   2

• DXF Import
• Multiple Light Sources
• Boolean Rendering
• Object Library
• Enhanced Terrain Editor
• Print Capability
• Object and Texture Libraries
• Rock Generator
• Render Preview Window
• Camera Banking

REQUIREMENTS:

Bryce 2 requires a Macintosh with a 68040 processor and FPU, or a Power Macintosh.   The Bryce 2 application requires a minimum of 8 Mb of RAM partitioned to it with at least 8-bit color resolution.   We highly recommend a Power Macintosh, at least 16 Mb of RAM partitioned to Bryce 2 and 24-bit color resolution.

TO INSTALL BRYCE 2
:

(1) Locate the "Bryce 2 install" icon on your CD-ROM.
(2) Double-click on the "Bryce 2 install" icon to start the installation.
(3) The installation will first display the ReadMe file, containing important news and information. Click "Continue" after reading.
(4) In the main install window, click "Install." Installation is now complete.
(5) Locate the Bryce 2 icon on your hard drive and double-click on it to launch the application.

TECHNICAL SUPPORT:

On America Online, we can be reached by using the keyword KPT to go to our online forum, or you may send E-mail directly to KPTSupport for general questions. Via CompuServe, we can be reached at GOKPTSUPPORT. Also, visit our World Wide Web site at http://www.metatools.com.

If you are not on America Online, you can send us E-mail via any Internet gateway. Our Internet address is kptsupport@aol.com.

Registered users may also contact our Technical Support Department, Monday through Friday, 9:00 am to 5:00 pm Pacific Standard Time, at (805) 566-6200.

We invite you to get online and join the rapidly growing group of graphics professionals and enthusiasts who share knowledge and ideas in our weekly America Online live chat, often hosted by Kai himself. Currently we meet Tuesday nights at 7:30 pm Pacific Time. Use Keyword KPT to enter our forum, and click on the MetaTools Chat button to enter the fray!
