• WHAT IS HeadlineNEWS? •
HeadlineNEWS is an all CAPS typeface with the lowercase letters being smaller versions of the capital letters.   This is an excellent typeface for BIG boldfaced messages for newsletters, flyers, and other places needing attention.   You may find other uses still!   This font is best printed out on a laser printer at 24 points or higher.

• Version History •
This is a dramatic improvement over version 1.0 with the addition of over 500 more kerning pairs and cleaned up outlines.   I also improved the hinting of the TrueType version making it more legible below 24 points.

• Shareware Notice •
You may try this font out for 15 days after which you are obligated to pay a shareware fee of ONLY $3.   Please print out the registration form and fill in the appropriate information.   Please prove the nay-sayers wrong.   Please support shareware!   Thank you.

Please mail payment to:
