- ColorCorrection
- DeResolution
- Dithering
- Fish Bowl (Convex/Concave)
- Halftone
- Matrix/Convolution
- Median/Pastel
- Mirror
- Noise
- RGB
- Ripple
- Rotate
- Scale
- Shear
- Soften
- Swirl
- Transposition
- Warp, Wave
- Zoom/Interpolate

SUPPORTED FORMATS

rib	RenderMan Interface Bytestream
jpeg, jpg, jff, jfif	Independent JPEG standard minimal file format
iff, amigaiff	Amiga Image File Format
bmp	Microsoft Windows BitMaP file
cur	Microsoft Windows CURsor file
gif, giff	CompuServe Graphics Image Format file
hdf, df, ncsa	Hierarchical Data Format file
ico	Microsoft Windows ICOn file
icon, cursor, pr	Sun Icon and Cursor file
suniff, taac	Sun TAAC Image File Format
mpnt, macp, pntg	Apple Macintosh MacPaint file
pbm	Portable Bit Map file
pcx, pcc	ZSoft PC Paintbrush file
pgm	Portable Grayscale Map file
pic, picio, pixar	PIXAR PICture file
pict, pict2	Apple Macintosh QuickDraw/PICT picture file
pix, alias	Alias PIXel image file
pnm	Portable aNy Map file
ppm	Portable Pixel Map file
ras, sun, sr, scr	Sun RASterfile
rgb, iris, sgi	Silicon Graphics RGB image file
rla, rlb	Wavefront raster image file
rle	Utah Run-Length-Encoded image file
rpbm	Raw Portable Bit Map file
rpgm	Raw Portable Grayscale Map file
rpnm	Raw Portable aNy Map file
rppm	Raw Portable Pixel Map file
synu	Synu image file
tga, vda, ivb	Truevision Targa image file
viff, xv	Khoros Visualization Image File Format
x, avs	Stardent AVS X image file
xbm, bm	X11 Bit Map file
xwd, x11	X11 Window Dump image

PATTERNS & GRADIENTS

Create and save custom patterns and gradients, or use those bundled with the application.

PRODUCT AVAILABILITY

- Available now for NEXTSTEP 3.1 or later
- Available in Q3 '94 for Hewlett-Packard's PA-RISC workstations
- Available in Q4 '94 for Sun Microsystems' OpenStep™ Architecture
- Includes complete user manual, on-line help, and a library of sample images
- Site license and runtime licensing available

WETPAINT

Lighthouse Design's WetPaint™ is a powerful, general-purpose paint and image manipulation program similar in functionality to Adobe Photoshop™. With an extensive (and extensible) collection of paint tools and filters, WetPaint is ideal for NEXTSTEP® users who want to add stunning graphical effects to their presentations, custom user interfaces, or general design and desktop publishing documents.

WetPaint's large assortment of bundled tools includes airbrushes, smudges, fills, paint brushes, and a variety of marquee selection tools and geometric shapes. An extensible collection of more than 20 bundled filters provide a spectacular array of special effects, including color correction, transposition, fish eye distortion, ripples, swirls, shearing, dithering, rotation, scaling, anti-aliasing and much more.

WetPaint provides support for editing TIFF, PS, EPS, RIB and more than 30 additional image formats in RGBA, CMYA and HSBA color models.

WetPaint is the perfect companion to Lighthouse Design's Concurrence™, a full-featured presentation and outlining application; and Diagram!™, a general-purpose drawing tool for business and technical graphics.

From custom application developers who want to enhance the graphical presentation of their NEXTSTEP products, to everyday business professionals who want to spice up their presentations and other documents, WetPaint is intuitive and easy-to-use—a powerful tool for all audiences.

With its extensive array of bundled filters and tools, WetPaint is the ideal application for NEXTSTEP users who want to add dazzling graphical effects to their presentations, custom user interfaces, or general design and desktop publishing documents.
