

Release Notes

SoftPC 4.10 for NEXSTEP/Intel Maintenance Release

Goodies Directory

This directory contains items which are not part of the formal SoftPC4.1 release, but which may be used on an "as is" basis.

SoftPC 4.10 Windows Sound Driver:

- These drivers may be installed using the Windows control panel. The Driver install option should be selected, and pointed at the "Goodies" directory.

Hard Disc File Contents Inspector:

- The file HdfInspector.bundle should be placed in LocalApps (or ~/Apps). Selecting an hdf file in workspace. Typing Cmd-2 will then display the contents of the hard disc.

The files in this directory are not supported in any way by Insignia Solutions, and are provided for use at the customers own risk. These products have not been formally tested, and Insignia will accept no liability for their behaviour.

This product is designed for use with NeXTStep3.3 for Intel Processors.
