

Help for MenuEv

MenuEv is a Visual Basic custom control that sends menu selection events to your VB program.

[About/Copyright](#)

[Getting Custom Controls Written](#)

[Properties](#)

[Events](#)

Properties

MenuEv only supports the following properties: Name, Tag, Left, Top, and Enabled. Only the enabled property is really useful. It determines whether or not MenuEv sends its event to your program.

Events

MenuEv only has one event: MenuEvent. This event tells your VB program when the user has high-lighted a menu item.

MenuEvent

MenuEvent Event

Description

Occurs when the user high-lights a menu item.

Syntax

```
Sub ctlname_MenuEvent( MenuText As String, Flags As Integer )
```

Remarks

This event only occurs if the Enabled property is set to True. Also, this event only fires for the form that the control on. If there are multiple forms that need menu event monitoring, you must place MenuEv on each one.

About MenuEv

MenuEv was written by James Shields. Inquiries can be sent to 71231,2066 on CompuServe, or mabry@halcyon.com on Internet. If you must send something via U.S. Mail, the address is:

James Shields
Mabry Software
P.O. Box 31926
Seattle, WA 98103-1926

You can register this program by sending \$10 (\$12 for international orders) and your address. CompuServe members may register by sending \$5 and their account number (the registered version will be E-mailed to you). CompuServe members may also register this package by going to the SWREG forum. MENUEV is registered there. MENUEV's registration ID number is 1270.

Source code (which includes a registered copy) to this control is available for \$25 (\$30 for international orders). With source code you get a registered version of the control. If you are a CompuServe member, you may get the source code in the Software Registration forum (GO SWREG) for \$20. It's registration number is 1271.
