Comment

These are the icons of OS I am using now at home or office. The three
icons in the bottom row is just my joke ;-)

Legal Stuff

The enclosed icons were created from scratch by Hide Itoh. You may
distribute this icon set provided you keep the set intact, including
this read me file and do not charge or request fees or compensation
of any kind. It's freeware, but this does not mean you can use it for
whatever purposes.
These icons may not be used for any commercial purposes. If you
want to put this archive to CD-ROM that comes with commercial
books, magazines, etc.. , you are required to contact the author and
must get the written permission in advance.

If you want to use these icons for your personal home page, please
drop me an e-mail and let me know the URL of your personal page.
Your comments are always welcome.

Tools I used to create this icon set

ResEdit only.
