

Registration

The cost to register a single copy of IconBuilder is \$69. The money is used to build a larger factory and fund new R&D.

As a registered user, you also receive the Iconfactory newsletter. The newsletter contains hyper-links that let you download special icon sets, preview upcoming icons and check out our newest tools.

Submitting a payment

If you use IconBuilder, you must send in your registration fee. There are several ways to pay:

The Enabler We've included a small application that makes it a snap to register. Double click on the Enabler icon in your IconBuilder Pro folder, and follow the directions on-screen.

Register on-line When you are downloading those cool icons from the Iconfactory, you can register on-line. It's quick and simple. The transaction is secure, so don't worry about someone stealing your credit card number. After your payment is processed, you will be sent a registration number by e-mail.

Register by mail The Register application in your IconBuilder Pro folder will help you fill out a form that can be sent to Kagi Software by e-mail or post. Kagi will process your payment and then we'll send a registration number by e-mail.

If you are paying by e-mail, the file created by the registration program should be sent to:

shareware@kagi.com

If you are sending your payment by post, use the following address:

Kagi
1442-A Walnut Street PMB #392-3M
Berkeley, California 94709-1405
USA

Entering your registration information

When you have received your registration information, use the Enabler application again. Enter your name, product code and number as it appears in the e-mail. After pressing OK, the program should thank you for registering. If not, check that the information in the mail matches the data you entered in the fields.

Technical support

Please remember that Kagi Software does not offer technical support for IconBuilder. If you have a problem, please contact the authors directly at iconbuilder@iconfactory.com. There is also a Frequently Asked Questions page at the Iconfactory (www.iconfactory.com).

Processing invoices

If you have a purchasing department, you can enter all the data into the registration program and then select "Invoice" as your payment method. Print three copies of the form and send it to your accounts payable department. You might want to highlight the line that mentions that they must include a copy of the form with their payment. Kagi cannot invoice your company, you need to act on our behalf and generate the invoice and handle all the paperwork. Thanks for your help.
