¦                                                             ¦
¦ This record is a means of conveying information about a software  ¦
¦ product from the author to distributors and users.  It contains a ¦
¦ normal, "human-readable" section (you're reading it now), followed ¦
¦ by a compressed data record.  The data record contains a great   ¦
¦ deal of information in a form useable by automated tools.  This   ¦
¦ allows BBSes, disk vendors, etc. to test automatically for      ¦
¦ permission to distribute, and to automatically extract product   ¦
¦ information for use in BBS files databases, vendor catalogs, etc.  ¦

===== Information for Users ("READ-ME") ================

This package contains the Smart 'n Sticky Windows Labelling Package
Version 1.1 by Oakley Data Services. This document contains only a
brief description of the package and its features, along with
instructions for its installation. Quite detailed documentation is
included in the package inside a standard Windows Help File. It is more
easily read after installation.

Smart 'n Sticky is a powerful labelling package for Windows with FULL
OLE CLIENT SUPPORT - giving you the power of packages such as Corel
Draw, MS WordArt and hundreds more! Easy to use with MDI, Undo, Mark &
Revert, Bitmaps, Metafiles, TrueType with rotation & justification,
Color Graphics, Serial Numbers, Date & Time fields, import from ASCII &
DBF, vast range of predefined labels or add your own, toolbar, status
bar, small & fast (not VB) and more! !

Smart 'n Sticky is a shareware program. This evaluation version
includes all features of the program. You may use it for up to 30 days,
without charge. If you like the program, and wish to continue its use

after this evaluation period, YOU HAVE TO PAY TO PURCHASE A FULL COPY.
Any fee you may have paid to others (disk vendors, dealers, etc.) to
obtain this evaluation version was a fee for their copying and
distribution services, rather than a payment for continued use of the
program.

===== Installation ====================================

Simply create a directory for the Smart 'n Sticky program and copy all
the files in this package into it. You can create a directory in Windows
by switching to the File Manager and selecting the "Create Directory"
option from the "File" menu.

You can then run Smart 'n Sticky by double-clicking on it from the
Windows File Manager, and you can add an icon to a group in Program
Manager (refer to your Windows documentation for how to do this, or
select the "Help" menu in Program Manager).

If you want to de-install the package simply delete the directory you
put it in.
