

WinTag/DosTag/NGSTag, fun programs by Neil Gorin
v1.04 - 15th November 1994. COPYRIGHT 1994 NEIL GORIN

This program is produced by a member of the Association of Shareware Professionals (ASP). ASP wants to make sure that the shareware principle works for you. If you are unable to resolve a shareware-related problem with an ASP member by contacting the member directly, ASP may be able to help. The ASP Ombudsman can help you resolve a dispute or problem with an ASP member, but does not provide technical support for members' products. Please write to the ASP Ombudsman at 545 Grover Road, Muskegon, MI USA 49442-9427, Fax 616-788-2765, or send a CompuServe message via CompuServe Mail to ASP Ombudsman 70007,3536.

What is it?

WinTag, DOSTag and NGSTag simply display "tag lines" stored in the file TAGS.DAT. The three programs and the required files are as follows:

DOSTag: Text-only version, displays tag line then exits. DOSTAG.EXE, TAGS.DAT

WinTag: Microsoft Windows version, see GUI versions below. WINTAG.EXE, TAGS.DAT, CTL3D.DLL

NGSTag: NGS GUI version (self contained). Needs VGA. See GUI versions below. NGSTAG.EXE, TAGS.DAT

GUI Versions

The GUI versions, WinTag and NGSTag, display the tag line formatted onto two lines within a window. Operations are as follows:

Left Mouse Click in Window: Close program Right Mouse Click in Window: View another tag line Press Escape: Close program

Under NGSTag, you may also select the Close box to close the window.

As default the WinTag window is displayed for 5 seconds, or until you click in the window or press escape. To increase or decrease this delay, simply include on the command line the number of seconds delay required... e.g. WINTAG 15 for a 15 second delay. Note that the window is invariably shown for longer than 5 (or 15) seconds, as the timer is not apparently updated whilst the hour glass cursor is displayed.

The Tag Lines were all grabbed from various conferences on Nildram Software's Shareware Support BBS on (01442) 891109.

Adding your own tag lines

Simply load the file TAGS.DAT into NOTEPAD and add lines to the end of the file. Make sure that there are no blank lines at the end.

Registration

No registration needed - this is Bannerware! Please take a look at any one of the programs detailed in CATALOG.TXT.

Contact point:

Neil Gorin, NGS, 4 Rookwood Drive, Stevenage, Herts, SG2 8PJ.

Telephone: (01438) 362671

Email: neil.gorin@nildram.com

Thank you for trying an NGS product.

History

25/1/94 v1.00. Uploaded to SSBBS

26/1/94 v1.01. (Yes - I know!) WIN: Removed title bar - less flicker

28/1/94 v1.02. WIN: Moves mouse cursor

29/1/94 v1.03. WIN & NGS Click right button to view next tag

15/11/94 v1.04. Double the number of taglines. DOS version now with new interface. New CTL3D.DLL.
