

WELCOME to Adventures with OSLO: World of Water DEMO by Science for Kids.

PRINT THIS DOCUMENT by selecting the "Print" command from the "File" menu.

This CD-ROM program is designed for children ages 4 through 12 and contains FIVE exciting and playful features — a coloring gallery, an animated story, a 3-D board game, OSLO's friends, and screen savers. This program operates on both Macintosh and Windows computers. THIS "README" FILE PERTAINS TO THE WINDOWS VERSION.

This "Read Me" file has eight key sections:

1. System requirements
2. How to install the program
3. How to improve performance
4. How to get the most enjoyment from your program
5. Technical support
6. How to contact Science for Kids
7. Warranty information
8. Product registration

APPLE QUICKTIME FOR WINDOWS

You need Quicktime for Windows (QTW) on your computer to run Adventures with OSLO: World of Water. We have licensed Quicktime 2.0.3 for Windows (QTW 2.0.3) for your use. Please use this version, which is the most updated version of Quicktime for Windows, as of 10/1/95, for the best possible performance of Adventures with OSLO: World of Water on your computer.

During the installation, the QTW runtime installation program will scan your computer for other versions of QTW and allow you to either save or delete these other copies of the Quicktime software.

In some cases, particularly when running Windows 95, you may receive an error message stating that the QTW installer was unable to update your .ini files. If this should occur, simply click OK and exit the installation. Microsoft assures us that the necessary files will have been copied to your hard drive and QTW 2.0.3 will be successfully installed despite this message. Tests to date have shown no difficulties in the performance of Adventures with OSLO: World of Water with this type of installation.

FILES CREATED ON YOUR HARD DISK DRIVE:

No files are created on your hard drive other than QTW 2.0.3, if you have chosen that option.

TIPS TO IMPROVE OPERATING PERFORMANCE:

1. Be sure you set your display to 640 x 480, 256 colors.
2. Quit other open applications before launching this program.
3. Turn off network connections.

GETTING THE MOST ENJOYMENT FROM YOUR PROGRAM FEATURES:

- At the Main Menu screen we have included an option to turn on Help "Bubbles" that describe each feature.
- The Coloring Book feature contains on-line Help which you get to by clicking the Lighthouse.
