CD-ROM TODAY'S THE DISC! #1

COLORFUL DEMOS FROM HUMONGOUS

PUTT-PUTT JOINS THE PARADE, PUTT-PUTT GOES TO THE MOON,
and FATTY BEAR'S BIRTHDAY SURPRISE are all contained within the
sub-directory \hedemos.

During our testing phase, we found that Putt-Putt Joins the
Parade and Fatty Bear performed very differently on different
machines. Several times we lost the speech, but occasionally
could restart it by tapping the space bar.

Unfortunately, due to the varying configurations and complexities
of sound cards on PCs, the demos can not be run directly
from the CD-ROM. Each of the files, therefore, is a self-
contained install program that will transfer the program
to the user's hard drive. The install program displays
all of the information users need so there are no readme.txt
files included.

The install program will not run under Windows. You must
install from DOS.

The Humongous number for tech support and orders for full
versions of these programs is 1-206-485-1212.
